

HOW TO SEW ON A BASIC BUTTON

INSTRUCTIONS: Begin by threading your needle and tying a knot at the end of the thread. Place the button on the garment where desired. Begin stitching by inserting the needle through the Hole A (shown below). Bring the needle from reverse side up through Hole B. Then go back down through Hole A. Repeat five times ending by going down through Hole A. This time come up through Hole C and then back down through Hole D. Repeat five more times ending by going down through Hole D. Tie a knot to secure your thread then snip off the excess.
